Segment results do not include general and administration expenses, provision for doubtful receivables, inspection and supervision fees and other income.

Segment assets do not include insurance operations' property and equipment, prepayments and other assets, due from related parties, premiums and reinsurance balances receivable, time deposits and cash and cash equivalents. Accordingly, they are included in unallocated assets.

Segment income, expense and results will then include those transfers between operating segments which will then be eliminated at the level of financial statements of the Company. As the Company carries out its activities entirely in the Kingdom of Saudi Arabia, reporting is provided by operating segments only.

12. FAIR VALUES OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or the most advantageous) market between market participants at the measurement date, under current market conditions regardless of whether that price is directly observable or estimated using another valuation technique.

The fair values of the Company's recognized financial instruments are not significantly different from the carrying values included in the condensed interim financial statements.

Determination of fair value and fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments:

- · Level 1: Quoted market prices in an active market (that are unadjusted) for identical assets or liabilities,
- Level 2: Valuation techniques (for which the lowest level input that is significant to the fair value measurement
 is directly or indirectly observable); and,
- Level 3: Valuation techniques (for which the lowest level input that is significant to the fair value measurement is unobservable).

During the three-month and nine-month periods ended 30 September 2016 and twelve-month period ended 31 December 2015, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into or out of Level 3 fair value measurements.
